Premier looking for gold

Bryan Meadows

#### NORTHWEST BUREAU

Thunder Bay-based Premier Gold Mines Ltd. is gearing up to explore for gold north of Pickle Lake.

An exploration camp is being built on the company's PQ North Property near Goldcorp's Musselwhite Gold Mine.

Geological mapping and sampling are underway and a 3D exploration model is being created to help identify targets for a winter drilling program.

Premier has signed a letter of intent with North Caribou Lake First Nation, paving the way for the exploration program.

The PQ North Property hosts similar gold-bearing ore zones as Musselwhite, the company says.
