

## About Us

Founded in 2006, Premier is a company that has successfully transitioned from explorer to gold producer. Premier is a North American-focused company that holds a portfolio of projects, ranging from early exploration to production, located in the heart of several of the world's most sought-after mining districts.

At Premier Gold Mines Limited, "A World of Opportunity" embodies the Purpose, Strategy and Values critical to the success of our organization and to the well-being of our employees, their families and our local communities.

Premier Gold Mines is an equal opportunity employer that does not discriminate against any employee or job applicant because of race, color, religion, national origin, sex, physical or mental disability, or age. Accommodations are available on request for candidates taking part in all aspects of the selection process.

## Database Management Geologist

Premier has an immediate need for a full-time **Database Management Geologist** to maintain and manage geological information and data systems for an expanding exploration portfolio. This position favors a seasoned self-starter with a strong geology and database management background. The Database Management Geologist will be responsible for developing and maintaining an internally consistent geological database, assisting in 3-D model creation, GIS management, and occasional field-based support. The position requires regular travel by vehicle to Battle Mountain and Winnemucca, NV. The primary location for this job will be in Reno, NV.

## Key responsibilities

- Manage all aspects of the Company's Nevada-based data including the geological database and GIS dataset
- Ensure data is backed up regularly, stored effectively, and is secure from unauthorized access
- Assist in the creation of 3-D models, cross sections and presentation materials
- Job may require field-based geologic support including drill rig oversight, sample collection, and logging

## Requirements/Qualifications

- B.Sc. degree in Geology or Computer Science necessary
- A minimum 1–5 years of direct field experience
- 2+ years experience working with data management and manipulation
- High level of computer literacy and experience with GIS
- Experience in 3-D model creation (GEMS and/or Leapfrog) and general data presentation
- Excellent communication, planning, problem-solving and organizational skills

---

Premier offers an excellent compensation package and opportunity for advancement with one of Canada's most dynamic publicly-traded gold-mining and exploration companies.

Interested applicants may apply in confidence to [careers@premiergoldmines.com](mailto:careers@premiergoldmines.com) no later than **5:00 PM Friday, March 1, 2019**.

Please reference the position in the subject line. We thank you for your interest. Only those selected for an interview will be contacted.
